

ABDUL MAJID

Python Developer

About Me

I'm a final year Computer Science student at Iqra University. I have a keen interest in data science and machine learning, and I'm eager to explore their real-world applications.

LANGUAGE

- English
- Urdu
- Sindhi

SKILLS

- Python Programming
- Databases
- Virtualization
- Data Science
- Critical Thinking
- Leadership
- Teamwork

OBJECTIVE

- As a final-year student in Computer Science, I am eager to secure a hands-on role in software development to apply and further develop my academic knowledge.

PROJECT EXPERIENCE

Automatic Course Scheduler (Python)

Iqra University - FYP

- Developed a dynamic course scheduling system using Python's Django framework and Django ORM.
- Implemented features for automatic timetable generation using a genetic algorithm, considering various constraints and preferences.

Virtualization on VMware Workstation

Iqra University - Virtualization

- Created a virtual network on VMware workstation with Windows 10, 7, Server 2012, and ESXi server.
- Set up Active Directory on Server 2012, added Windows 10 and 7 to the domain, and managed DNS and DHCP for smooth network operations.

Word-press Website (Musical Instrument Store)

Iqra University - Electronic Business

- Created a dynamic WordPress website for a musical instrument store featuring multiple vendors.
- Customized and integrated various plugins to manage products, inventory, and vendor profiles.

EDUCATION

Iqra University

Bachelor of Computer Science
2020--Exp. Grad. April '24
'CGPA' - 3.39

NCR - CET

Intermediate
2016-2019, 'C' Grade

Gulistan-e-Fatima School

Matriculation
2014-2016, 'B' Grade
